

Dear ID faculty,

We are thrilled to welcome **Leonard Telesca** as our new Division Manager! Leonard comes to us from the UCSF School of Dentistry, where he was the Clinic Manager for the Periodontology and Oral Medicine clinics for the last 2 years. Prior to joining UCSF, Leonard held several positions at Micro Dental Laboratories during his 9-year tenure, most recently as the Director of Service Operations. Leonard holds a bachelor's degree in Neuroscience from Drew University, and he brings with him a strong background in management, strategic planning, process improvement, and clinical operations.

To ensure a smooth transition in both the School of Dentistry and the ID division, Leonard will start working 50% time for the ID division as of June 24 and will overlap with Tan for that week. Leonard will transition to full-time for the ID division effective July 14. We will continue to have the very strong support team of Serena Lee (Post-grants management), Kimberly Chan (Fellowship coordinator), and Ynez Adsuara (front desk).

Kind regards,
Joanne

Joanne Engel, M.D., Ph.D.
Professor, Departments of Medicine and Microbiology and Immunology
Chief, Division of Infectious Disease
Director Microbial Pathogenesis and Host Defense Program
